Decide with Confidence

Risk Explanation

- Low Risk
- Moderate Risk
- High Risk
- Not Rated

Risk data from August 2011. For detailed and most up-to-date Country Risk Indicators and trend information, please contact your local D&B representative.

Any firm or individual who conducts cross-border transactions is exposed to country risk: the risk associated with a country's overall political, economic and commercial performance. Whether you are involved in foreign trade,

direct investment or portfolio management, D&B Country Risk products allow you to evaluate country risk. www.dnbcountryrisk.com
